STONE HOT DOG PEELER AND VACUUM TABLE

Features and benefits: The Stone Vacuum Table was designed to be used in conjunction with the Stone Hot Dog Peeler for the removing of the inedible casings from hot dogs, sausages and cocktail weenies. The Hot Dog Peeler product change-overs can be done in less than a minute with no tools required, has a product sensor for reduced steam and air usage and creates no product damage, while maintaining high capacity capabilities.

The Vacuum table is used when a plant does not have a central vacuum system in place or is in need of additional vacuum service. It has a large 26"x39" table top, with a 66 cubic inch waste chamber. Easy to adjust settings for production optimization and tool less assembly and disassembly for quick and easy cleaning. Both the Hot dog Peeler and the Vacuum Table come with a 1 year electrical component warranty and a 3 year structural warranty.

Construction: Features on the Hot dog Peeler include open design for easy, quick cleaning and manufactured with 300 series stainless steel. The Vacuum Table includes 12 gauge 304 Stainless Steel TIG welded body. 5 horse power fully wash down motor. Can be hardwired into the Stone peeler for control ease or a 30 amp plug availability for mobility ease. The vacuum system is standard at 40" of water at 180 cubic foot per minute. All equipment is manufactured and designed with endurance, sanitation, maintenance ease and production needs in mind.

ALL PRODUCTS AND SERVICES CARRY A 100% SATISFACTION GUARANTEE FOR QUALITY, DURABILITY AND RELIABILITY.
