DIP TANK CONVEYOR

Features and benefits:

Dip tank conveyors are designed for products that need an antibacterial treatment, coloring or any other liquid treatment. They have an easy clean design to allow the belt to run in a cleaning position, variable speed drive for controlled dip times and optional adjustable valves available for agitation control.

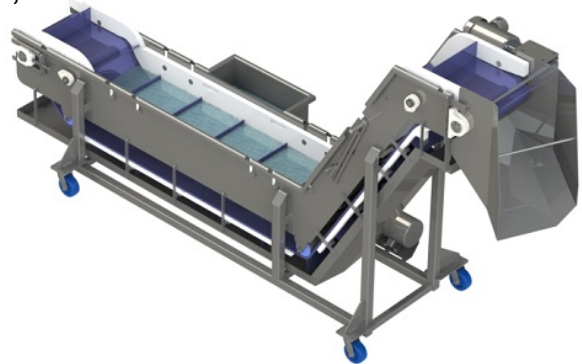

Construction:

All of our conveyors are made of 300 series stainless steel, TIG welded, full wash down motors and are custom made to meet your length, width and size need.

Description:

All equipment is manufactured and designed with endurance, sanitation, maintenance ease and production needs in mind.

ALL PRODUCTS AND SERVICES CARRY A 100% SATISFACTION GUARANTEE FOR QUALITY, DURABILITY AND RELIABILITY.
